

Fishing Trip Log Sheet

One trip, one page. Record the conditions, then every catch. Over a season the pattern shows up on its own: which spots, which depths and which baits produce.

THE DAY

DATE		WATER BODY		LAUNCH / ACCESS POINT	
START TIME	END TIME	AIR TEMP		WATER TEMP	
SKY	WIND DIR / SPEED	WATER CLARITY		WATER LEVEL	
MOON PHASE	BAROMETRIC PRESSURE		FISHING PARTNER(S)		

CATCHES

#	TIME	SPECIES	LENGTH	WEIGHT	DEPTH	BAIT / LURE	SPOT OR GPS	KEPT

WHAT WORKED, WHAT DID NOT

Write this before you leave the ramp, not that night. The detail you lose first is why you changed lure, and that is the detail worth the most next season.
